

I have many hobbies. I always do them in my spare time. I love doing them very much.

One of my hobbies is playing the piano. I like playing the piano. If you put your fingers on the keys, you can listen to the sound from the piano. I think this hobby is interesting and challenging. I have a piano lesson every weekend. We can take exams if we want to know how well we have done. I have been learning to play the piano for two years, and I am in Grade Four now.

My second favourite hobby is singing. I like singing very much. I always sing the pop songs which are sung by pop singers. I find the songs from the video clips on the Internet, like Youtube. We can find many music videos there. In the future, I want to be a singer.

My third favourite hobby is playing computer games. I only do it on Fridays, Saturdays and Sundays.

I love my hobbies and I will do the activities forever.
