

Last Tuesday, Primary Four to Primary Six students had a picnic. Every schoolmate was excited because they had been looking forward to this day for a long time.

When I was going to school on that day, I met the classmates of my team. They helped me to carry some bags. They were helpful. I was tired because I was carrying lots of food that was enough for fifteen people to eat. 'Hurray! We are ready to have a picnic!' I was so excited that I could not help saying this to myself.

The bus took us to a country park. Our class teacher led us to find seats and take a rest. First, we set the fire, but it was difficult to do so. We finished making a fire only at around half past eleven! Next, we started to have a barbeque. The food was yummy and I finished all my food! A girl classmate said that I was 'The King of Pollution'? because when I finished buying meat in the food shop! the shopkeeper gave me plastic bags and plastic boxes to carry the meat. There was food for fifteen people so I was given fifteen plastic bags and plastic and boxes. If I throw away the plastic bags, I will pollute the Earth greatly. However, I will not do so. After that, we played hide-and-seek. I won two games. Lastly we went back to school.

I enjoyed myself at the picnic, but I was a little bit unhappy to be called 'The King of Pollution'. I thought the government should care about the environment because pollution is very serious in Hong Kong and that will make the Earth 'sick'. We should protect the Earth before it is too late.
