

My Best Friend

Wong Sze Wing (6A)

My best friend is Nicole who is in the same class as me. We first met when we were in Class 1B.

Nicole is short and thin. She has long hair and big eyes. She is talkative and honest. She always talks in a funny way to make me laugh. If I have a problem, I will call her and she will solve the problem with me. We talk about everything. We always chat and play together at recess. She likes playing the violin and I like playing the piano, so we play the musical instruments together when we are free. We think it is fun and interesting. We also read newspapers and get information together because we think we can learn more from them.

I am very happy to be friends with Nicole. I know all good things cannot last long. A few months later, we will go to different secondary schools, but we will not forget each other. Our friendship is always in our minds.

A Picnic

Chan Yin Kiu (6A)

Last Tuesday was our school picnic day. We went to the country park at about nine o'clock. There were many trees and it was quiet. There was fresh air too. I love that place very much.

We had a barbecue for our meal. We had fish balls, chicken wings, sausages and other delicious food. They were very yummy. Then we played games together. We played hide-and-seek and it was very exciting. I liked playing this game very much. We took many photos too.

They were very beautiful. Later, someone posted the photos on Facebook.

I was very happy that day because it was very enjoyable. I will not forget this school picnic in the future.
