

A Trip to Japan

Li Hao Ting (6A)

Last summer, I went to Korea to celebrate my birthday.

Korea is my favourite country. On the first day, I went to Seoul. It is a big city. I shopped with my family and I could choose my favourite things to buy. My sister took me to see a concert. The concert was held by my favourite singers. We had dinner after the concert. We ate traditional Korean food. It tasted good.

On the second day, we went shopping in Mingdong. Then we went to Loktin World. It was very large and very funny. We had dinner in the park too!

On the last day, we went to Dongdaemang. We went to a coffee shop. The cakes and drinks were nice. Then we went to a large shopping centre. There were many things that I liked, so I bought many things for myself. However, we did not have time to visit other places because we had to go to the airport to take the flight back to Hong Kong.

If I have another chance, I will visit Korea again.

My Favourite Person

So Kai Hong (6D)

My favourite person is my mother. She has big eyes, long hair, a small mouth and small ears. She works in a factory. I like her most because she is very nice. She cooks dinner for me every day, and she sometimes plays with me.

She likes listening to music because she thinks this is relaxing. I usually go shopping, and play table tennis with her. She is kind and she always helps Grandma to cary food. I really like her very much.
