

A Trip to Ocean Park

Chan Tsz King, Nicole (6A)

On my last birthday, my family and I went to Ocean Park for a day.

When we first arrived at Ocean Park, we visited the sharks. I was very frightened to look at them because they were dangerous and terrible. Then we visited the pandas. They were so lovely. One of them was sitting on the grass eating bamboo and another one was sleeping. Their postures were cute. After that we went to a restaurant to eat something. Then we went to a souvenir shop to buy some gifts for my relatives. I thought when they received my gifts, they would be very happy. Finally we went home in the evening.

On that day, I had a lot of fun and I will not forget that day.

My Favourite Season

Lam Ki Wa (6B)

My favourite season is summer.

In summer, I can go to a beach or a swimming pool. At the beach, I can swim, build sandcastles and play beach volleyball with my family. I can also go swimming in a swimming pool with my friends, but I cannot build sandcastles and find beautiful shells. I like going to a beach more than a swimming pool in summer.

I like eating ice-cream very much, and I always eat ice-cream during summer. Therefore, I may get fatter and fatter. I will do many exercises to keep fit, such as swimming, hiking and playing ball games.

In summer, I can have many other activities, such as camping, fishing and having a picnic. I can also travel to other countries with my family. I like summer very much.
