

Now I am a primary six student. I will go to a secondary school in September. I will meet new teachers and classmates. I am very nervous.

I hope I can go to a good secondary school and have a good future. I want to be a student of Carmel Pak U Secondary School because it is a good school. I am afraid that I cannot get a good result in the secondary school. Therefore, I will work hard in my lessons and read more books. I hope to get a good result because I have a dream job.

When I grow up, I want to be a doctor because a doctor can save people's lives. A few years ago, my grandfather had lung cancer. He suffered a lot. He met a good doctor. The doctor always talked to him and comforted him. Although my grandfather has passed away, I will not forget the good doctor.

I know that my dream job is difficult to fulfill unless I work really hard. I will do my best to study. I will pay attention to all my lessons. I also know that my mother will always stand by me. If I feel down and small, she will comfort me and give me support.

I will succeed if I do not give up. I am sure my dream will come true one day.
