

I wish my apartment could have three bedrooms, one big kitchen, one sitting room, one dining room and one balcony. The area of the apartment will be one thousand and five hundred square feet.

I want to buy one TV set and one set of sofa with patchy colours for the sitting room. And I want to buy a big and rectangular table for the dining room too!

In the big kitchen, I want to have an oven, a big fridge, a microwave oven and some areas for cooking because I like eating.

There will be three bedrooms, one of which will be for my parents. My dad and mum like wooden furniture matched with snow-white colour.

I wish I could have a room sharing with my sister. There will be a computer desk for my computer. I wish I could have my own wardrobe too. Our room will be of girlish style and painted in pink colour.

My two brothers will share one room. They will also have their own computer. Their room will be of boyish style and painted light blue.

I like plants so I will grow many flowers in the balcony.

My dream apartment is clean, comfortable and lovely. I hope I can move to my dream apartment soon.
