

I like to go to islands because of the beautiful sea views and the fresh air. If I am free, I will go to my favourite island. It is Lamma Island.

I went to Lamma Island with my family during last summer holidays. This was the first time I went there. We set off at half past ten in the morning. We brought a lot of snacks and drinks. First we took a bus to Central. Then we took a ferry to Lamma Island.

When we arrived at Lamma Island, we had lunch in a restaurant. After that, we walked about fifteen minutes to the beach. The beach was beautiful. We put down our things and went swimming. Although I did not know how to swim, I enjoyed playing in the sea. We also built sandcastles and played ball games on the beach. We felt happy and enjoyed the trip very much.

I went to Lamma Island again three months later. I went hiking with my cousins. I liked hiking because I could see the beautiful view when I climbed up the mountain. The air was fresh and I could take many beautiful photos.

I like Lamma Island so much. I will go there again and again if I am free.
