My favourite sport is basketball too! Many people like it very much.

Why do people like it?

Because it is so much fun!

Why did I say it was fun?

Because we need to play together! If a team member is not cooperative, then the team will lose the competition!

I remember once, Stephy and I went to a playgroup to play basketball. We were playing so happily. In the last minutes, Stephy shot for goal. She won!

I lost, but I thought that I would win!

Our favourite sport is playing football. We always play football near our school. On Saturday we play football at
On Sunday we play football, at half-past four.

We like playing football because it is fun shooting for goal and dribbling the ball. This sport can also

make us healthy.

We always play football together with Michael because we all have a lot of spare time. When we play football together, we feel happy when we win. When we lose a match, we will feel so sad. After playing football, we like going to McDonald's to eat chicken wings and drink something.

school news

FRUIT MONTH

April was Fruit Month. In this month, the students had to take some fruit to school to eat in the recesses. The students brought much fruit to eat. They brought apples, oranges, bananas, grapes and small tomatoes.

The teacher played some fruit songs.

The teachers hoped that the students would eat more fruit in this month, because fruit has vitamins A, B, C, D, and E. These are good for our bodies and our health.

CHINESE FORTNIGHT

Chinese Fortnight was from 13th April to 24th April. The students played some tongue-twister games. The

tongue twisters were very funny. The students had to say the tongue twisters in ten seconds.

Here is an English tongue-twister:

'She sells sea shells on the sea shore'

TONGUE TWISTER

My Favourite BOOK

My favourite book is Snow White. I think it is because this book is very touching. I like Snow White because she is beautiful and generous. The scariest part of the story is when the old woman gives the apple to Snow White, and Snow White dies. A funny part of the story is when the Prince kisses Snow White. At the end, the Prince marries the Princess, who is Snow White, and they live happily ever after.

computer games we like ...

Our favourite computer game is **IB: Horrible Art Museum**. This is a popular Japanese terror RPG game. It is made by Kouri. The game plot is about one girl called IB.

One day she went to the Art Museum with her parents and visited Guertena's works.

Suddenly, everyone disappeared, but IB didn't. She could not go home because the door could not be opened. She needs to find her way back in this strange Art Museum. The player must use a keyboard to control IB. He or she has to find the clues and solve the puzzle. Gary and Mary are NPC (non-player characters). They help players to find a way to escape. In the game a rose r means 'life' and the rose's petals show its value.

This game has four endings; they are 'Together Forever', 'Alone IB', 'The End of a Picture', and 'Welcome to Guertena World'.

We like this computer game because it is so exciting. We are not scared of ghosts or moving pictures in the game, because they are not real.

My favourite game is **Minecraft**. It is a very interesting and challenging game. It is in 3D.

In this game you need to cut some wood to make a house, because in the Minecraft night, there are some enemies, like Creeper, Zombie, Enderman, Spider and Ghost. They will hit you, and you will die. You can use some metal, wood, gold or diamonds to make weapons, like swords. These weapons can hit enemies and they can die.

Be careful: Enderman can teleport and Creeper can blow up. You can make some armour from leather. You can keep some cows, pigs and sheep. You can eat them to refill the blood, and the villagers will help you.

Stories and POEMS

Tai Po Funny School

Once upon a time there was a school named Tai Po Funny School. In class 6A of that school, there was a boy named Taile.

Although the school had the word **Funny** in its name, the classes were very, very boring. They recited the reading texts from the book all day.

One strange day, Taile felt the whole world was changing. The teacher did not ask the students to recite the reading texts in the books.

All the students were playing in the classroom. He thought he was in his dream. So he hit himself. It hurt, so it was not a dream.

He started playing games. He was very happy.

But in an exam, he got ZERO marks! He thought he should study hard.

Suddenly, the whole world became very, very bright. When the world was dark again, the real world came back. All the students were reciting the reading texts in the books again.

Taile decided to study hard. In the next exam, he got 100 marks!

Date.A.Live

This is a very good cartoon. I think a lot of people have watched this cartoon. This cartoon is happening in September, 2056, in Japan. The genius Tohka Yatogami saw a person called Shido Itsuka. They decided to meet. They went shopping and then they lived together. Do you know why they wanted to meet?

It is because Shido wanted to keep peace in the world.

It is a funny cartoon. I recommend that you watch it.

CRAYON SHINCHAN

My favourite cartoon is Crayon Shinchan. He is five years old. He studies in kindergarten. He has a father, mother, and a little sister in his family. He really likes a beautiful lady.

This cartoon has ghost stories, funny stories and touching stories.

I think the funniest cartoon is this one:

One day Shinchan's father was coming home. Suddenly, he saw a doll, but it was cursed. He thinks the doll is beautiful, so he brings it home to Shinchan's little sister.

When the children were sleeping, the doll flew! They were very afraid!

The doll said 'You can't abandon me.'

Then all of Shinchan's toys started to walk! They were angry with Shinchan always hurt them. So Shinchan learned to love and protect them. I think this story tells me that we should love our toys.
