Going Green

These are some things that we can do to save the Earth. First of all, don't eat too much seafood. Also, use fewer plastic bags and always bring your own shopping bag. Also, don't buy any ivory or rhinos.

If you want to send someone a card, don't send paper cards. You can send e-cards. Use less paper! Also, avoid cutting down trees. When you finish drinking from a bottle, you can use the plastic bottle to make a flower pot. And, if the plastic bottle is very big and clear, you can make a fishbowl too.

Always remember the 4Rs: Replace, Recycle, Reuse and Reduce. It is very important to keep the Earth healthy!

Chinese New Year

During Chinese New Year my family and I went to Dong Guan and Guang Zhong. We went there by car. We drove for three hours. First, we booked a hotel and stayed there. After that, we went to a shopping centre and saw a film. Finally we went to my uncle's house and got some red packets. At night, we watched the fireworks and ate rice cakes, turnip cakes and pumpkin seeds. Chinese New Year in China was great!

by Zoe

My family and I went to my uncle's home for Chinese New Year. I got 20 red packets from my relatives. We ate a lot of delicious food. At night-time, we saw the fireworks. My brother and my cousin were also there. I felt that Chinese New Year was great because there was a lot of yummy food and we could get many red packets.

CHINESE NEW YEAR

What I Want to Be When I Grow Up

I want to be a police officer when I grow up because it is a meaningful job and I like the police uniform. If I become a police officer, I will protect and help people.

A police officer needs to be brave so that she can catch dangerous thieves and robbers. She also needs to be smart so that she can look for clues to solve crimes. A police officer needs to be strong and fit too.

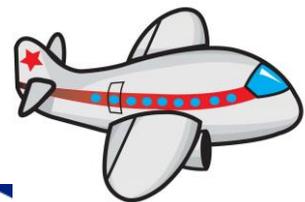

I hope I will be a police officer in the future because this is my dream job. It is a suitable job for me because I am outgoing and brave. **By Adeline**

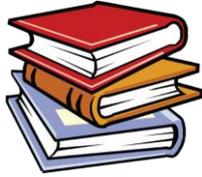

Going to England

I would like to go to England. I would like to go with my dad and my friends. I would like to stay there for one month. If it is winter, I can have a snowball fight with my friends. I can also go ice-skating with them. If I go to England, I will feel very happy, comfortable and relaxed.

Favourite Books

The Big Friendly Giant is one of my favourite books. The author of the book, Roald Dahl, has a creative and fun imagination. I watched The Big Friendly Giant movie before I read the book.

Roald Dahl was a very clever author. Before he became an author, he was a spy, a pilot, historian and medical inventor. He wrote many famous children's books like Charlie and the Chocolate Factory and Matilda. He passed away in 1990.

I recommend The Big Friendly Giant to 8 – 11 year olds. Most adults may like the book too! **By Ciara**

My favourite book is Charlie and the Chocolate Factory. The author is Roald Dahl. He is a creative author who writes some funny stories. They make the readers very surprised. The film based on the book is interesting too.

The book is about a boy called Charlie who likes to eat chocolate bars but he is so poor. He eats chocolate bars only once every year. Charlie lives near a huge chocolate factory which belongs to a strange man called Willy Wonka. Charlie and four other lucky children win a tour of the factory with Willy Wonka. Many interesting things happen to the children.

I was excited when I read the book. After reading this book I have more knowledge. It also made me laugh!
